

INDUSTRIAL FINISHES

Automotive and Industrial Coatings

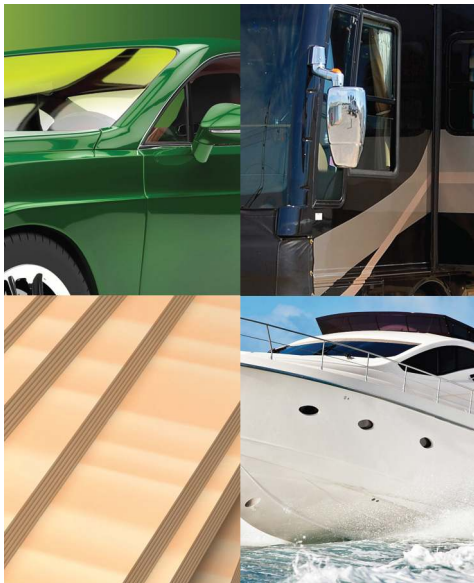

Premier™ Adhesives

Automotive, RV, Panel Bonding & Marine

Automotive & Industrial Adhesives

Premier Adhesives have been specifically formulated to meet the bonding demands of most industrial and commercial applications. Premier's high efficiency, canister-packaged products are proven performers in most markets, including Automotive, Panel bonding, Marine and RV. Individual products features may include:

Heat & Moisture
Resistant

Low VOC

High Solids-High
Strength Bonding

Excellent
Tack

Non-flammable

Industrial Finishes, being in the forefront of their industry, and known for exceeding customer expectations, is committed to the protection of our environment. This commitment to "Solutions for a Cleaner World" has led to a featured assortment of selected Premier Adhesives products with desired characteristics that include HAPS-free, Aero ODS, Low VOC content and conform to State and Local regulations.

Premier Bond Adhesives

Products	Sizes/ Net Weights Available	Features	Uses	Rec Tip*	Dry Time	Open Time	Flammability
PB999 A canister-packaged contact adhesive designed for many general purpose manufacturing applications where high heat is not an issue.	Canisters (Pounds) 28.0lbs (12.7 kg) 140.0lbs (63.6kg) 290.0lbs (131.7kg)**	<ul style="list-style-type: none"> • High Solids • Web Spray • Excellent Tack 	<ul style="list-style-type: none"> • General Purpose • Fabrics • Scrim • Plastics 	Q	3-5 Mins	20-40 Mins	Flam
PBSS HAPS Free, general purpose adhesive Water resistant bonds, user-friendly aerosol systems designed for increased productivity saving time, money, and materials.	Disposable Canister (Pounds) 9.0 lb (4.1 kg) 30.0 lb (13.6 kg) Reusable Canister (Pounds) 140.0 lb (63.6 kg) 280.0 lb (127.1 kg)**	<ul style="list-style-type: none"> • Fast tack • HAPS Free • Water resistance • No ODS 	<ul style="list-style-type: none"> • Upholstery • Fabrics • Foam • Lightweight insulation • Fiberglass insulation 	9501	2-5 Mins	20-30 Mins	Flam
PBFRP An industrial grade spray adhesive for bonding panel materials, Fast drying formula designed for bonding exterior grade substrates to foam(s). Designed for exposure to moisture and extreme temperature in a portable package that is ready to use.	Canister (Pounds) 9.0 lb (4.1 kg) 30.0 lb (13.6 kg) 140.0 lb (63.6 kg) 280.0 lb (127.1 kg)**	<ul style="list-style-type: none"> • High Solids • High Coverage • Fast Drying • Good Moisture Resistance • Ready to Use 	<ul style="list-style-type: none"> • Exterior grade substrates to foam 	9501	1-2 Mins	1-60 Mins	Flam
PBQDA (Quick Dry Adhesive) A non-chlorinated, high tack, fast drying multipurpose adhesive	Aerosol (ounces) 12oz (340 gm) Canister (Pounds) 30.0lbs (13.6 kg) 140.0lbs (63.6 kg) 290.0lbs (131.7 kg)**	<ul style="list-style-type: none"> • Fast drying • High tack • Long lasting tack • Water resistant • Strong bond • Non-chlorinated • No ODS 	<ul style="list-style-type: none"> • Fabrics • Upholstery • Foam • Fiberboard • Particle board • Plywood 	9501	3-5 Mins	15-30 Mins	Flam
NSACR (Citrus Cleaner) A biodegradable, natural solvent cleaner, degreaser and adhesive remover.	Aerosol (ounces) 14oz (397 gm) Canister (Pounds) 8.0lbs (3.6 kg)	<ul style="list-style-type: none"> • Fast application • Minimizes waste 	<ul style="list-style-type: none"> • Painted surfaces • Glass • Porcelain • Concrete • Compatible w/ many plastics and vinyls 	N/A	N/A	N/A	Flam
PUB30 (Polyurethane Bead) A one-component moisture cured polyurethane adhesive that is designed to combine the heat, chemical, and moisture resistance properties consistent with polyurethane technology.	Canister (Pounds) 30.0 lb (13.6 kg)	<ul style="list-style-type: none"> • Chemical resistant • Fast tack • Temp. resistant 	<ul style="list-style-type: none"> • Architectural foam bonding • Sub-floor bonding • Wood joist to floor bonding • Fiberglass reinforced panels 	Bead Gun w/fixed tip	15Mins	Handling cure time 2 hours with full cure in 24 hrs.	Flam
PB 923 Non-chlorinated high performance industrial grade adhesive. Designed to resist high temperature and water exposure. It is versatile and fast tacking as while accomplishing strong high strength bonds	30 lbs (13.6 KG) Canister 140.5 lbs (63.7KG) Canister 300 lbs ()	<ul style="list-style-type: none"> • High Heat Resistance • High Strength Bonds • Quick Bonding • Non-Chlorinated Solvent 	<ul style="list-style-type: none"> • Woodworking • Automotive • Laminating • Top & Trim 	9501	3-5 min	20-40 min	Flam
PB 938 (Bulk Liquid)	4.8 gal Pail 51.8 gal Drum	<ul style="list-style-type: none"> • Sprayable • High Heat Resistance • High Strength Bonds • Economical 	<ul style="list-style-type: none"> • Woodworking • Laminating 	(see bulk spray equipment guide)	3-5 min	10-15 min	Flam
PB W2007 (Bulk Liquid) Nonflammable water-based high solids industrial grade contact adhesive. High performance, high coverage rate, and LEED compliant. 2007 is designed to provide high heat resistant bonding of decorative laminates and a variety of other substrates.	4.7 gal Pail 54.6 gal Drum	<ul style="list-style-type: none"> • Water Base • Good Heat Resistance • High Strength contact bond 	<ul style="list-style-type: none"> • Woodworking • Laminating 	730154	15-30 min	30-45 min	Non-Flam
Duct Liner Adhesive Nonflammable water-based high solids adhesive for HVAC, interior thin vinyl flooring and carpeting. Duct Liner Adhesive is a pressure sensitive adhesive with an extremely aggressive tack.	30# Canister	<ul style="list-style-type: none"> • Water Base • Economical • 1 Sided Bonding 	<ul style="list-style-type: none"> • Vinyl flooring • Carpet 	730154	10-15 min	20-40 min	Non-Flam

* Recommended Tip Applies to Aerosol Canisters Only
Manufactured by GTA-NHT, Inc. - NorthStar, A 3M Company, Cartersville, GA, USA
